Objective

I'm seeking a web developer position at a company where I can learn, collaborate & grow as an engineer

Technical Skills

Languages: Ruby, JavaScript, HTML5, CSS3, CoffeeScript
Frameworks: Rails, AngularJS, Sinatra
Databases: MySQL, SQLite3, PostgreSQL
Design: Adobe Photoshop, Adobe Illustrator
Other: HTTP, Redis, Sidekiq, Git, Ajax, JSON, jQuery, Heroku, Handlebars, Docker, Memcached

Experience

OtherLevels - San Francisco, CA   Aug 2014 – Nov 2014

Junior Integration Engineer (contractor)
• Built internal dashboard application for global sales and marketing teams
• Mapped data utilizing MySQL queries and Rails Activerecord
• Enhanced performance by integrating memcached caching

General Assembly - San Francisco, CA   Mar 2014 – June 2014

Web development immersive student
• Completed 12 week intensive full stack web development course
• Programmed 80+ hours per week building web ready apps end to end
• Practiced absorbing dense topics & new technologies; subsequently, applied that knowledge, completing functional apps in short periods of time
• Enhanced pair programming skills collaborating with classmates
• Implemented testing via RSPEC & Jasmine
• Covered computer science theory: efficiency ("The Big-O"), data structures & algorithms

Mixonic - San Francisco, CA   Jan 2014 – Apr 2014

Graphic Designer (contractor)
• Produced web ready images for new product launches
• Developed video tutorials to enhance UX

Travel - Completed lap around the world   Jan 2013 – Dec 2013
Mixonic - San Francisco, CA   Jan 2009 – Dec 2012

Director of Operations
• Managed six departments including IT coordination
• Maintained strict quality control procedures to ensure safety & customer satisfaction
• Dramatically increased company efficiency & productivity while implementing cost effective solutions
• Facilitated development of in-house software applications prior to product launches

Projects

• **Popspot**   popups-app.herokuapp.com
  A social app for locating Pop-up businesses
• **Chair**   chair-app.herokuapp.com
  A community app to donate furniture
• **Grocery List**   grocery-list-app.herokuapp.com
  A simple, easy to use, list app that I intend to place on the iOS app store
• **Movie Search 415**   movie-search-tb-app.herokuapp.com
  App for searching movie titles
